**Notice to Parents and Students:** Every effort has been made for the information in this handbook to be correct and accurate at the time of publication. THE MISHAWAKA WAY IS ROOTED IN  
"GROWING LEADERS IN A CULTURE OF EXCELLENCE".

The Mishawaka Way provides our colleagues and our community with an understanding of how we work at School City of Mishawaka, why our work is life-changing, and how we will go about accomplishing the important goals entrusted to us.

## CIVILITY CLAUSE

School City of Mishawaka believes that the education of a child happens through a partnership. The partners include the child, the parents and guardians, the school faculty and staff, and the community. In order for this partnership to succeed, each partner has certain responsibilities.

School City of Mishawaka staff members are expected to lead by example and to treat students, parents, members of the community, and other staff members with courtesy and respect at all times. They are to behave in a professional manner and accept responsibility for their actions.

We ask and expect parents to conduct themselves in a similar manner. We believe that parents should serve as positive role models to their children. When concerns arise, we ask that they be brought to the teacher first. If there is not an adequate resolution with the teacher, the concern should be addressed with the principal. If there are additional concerns after discussions with the teacher and principal, the matter should be brought to the Superintendent. Respectful

communication is the key. By working together, we will foster an atmosphere that will benefit the learning environment of all School City of Mishawaka students.

## **SCHOOL CITY OF MISHAWAKA CODE OF CONDUCT**

(approved by the Board of School Trustees 6/4/2020)

### **Introduction**

School City of Mishawaka believes strongly in creating a positive school climate where students, parents/guardians, and all staff members work together in a collaborative environment to maintain an orderly and safe learning environment focused on teaching and continued learning. All students have a right to a disciplinary process that is consistent, fair and applied equitably.

Our schools are the most successful and safest when all students, parents/guardians, and staff alike—collaborate, value and respect each other’s roles in discipline practices.

**SCM Philosophy of Discipline**

School City of Mishawaka sets forth the expectation that all SCM schools will be learning environments that are conducive to learning. In addition to a student’s home, schools are communities in which positive behavior is expected, modeled, and learned within an environment of mutual respect and self-worth.

SCM believes strongly that discipline is a developmental process, and effective school discipline should meet students’ different behavioral and development needs. A continuum of instructional strategies and disciplinary responses supports ongoing teaching and learning, fosters positive behaviors, and reflects a restorative discipline philosophy. Restorative practices allow students opportunities to learn from their mistakes, reflect on their behavior and restore relationships that are disrupted by their conduct. Our school discipline practices are designed to engage students in the classroom so that all students can become college and career ready.

Consistent, firm and equitable application of disciplinary action is expected, and all students should be made aware of the consequences of misbehavior. However, school discipline should be administered in a way to keep students within their regular daily program. Suspensions and expulsions from school should only be used when necessary.

**Student Conduct**

All students need to be provided with expectations about how they should conduct themselves at all times at school. Teachers should directly engage students in the process of developing in class codes of conduct. This is an important opportunity for students to agree on expected behavior and how they will treat others and how they would like others to treat them during school.

**SCM Staff Expectations**

Caring teachers and staff members play an important role in building strong relationships with students, which assists students’ connection to school and decreases the possibility of engaging in disruptive or distracting behavior at school. All teachers and staff members will develop their own personal ways in developing positive relationships with students. It has been proven that students who have a positive connection with an adult in their school are less likely to engage in disruptive behaviors in class, are absent from school less and in all likelihood remain in school and graduate.

Teachers/staff members will do the following:

- a) Maintain a climate of mutual respect and dignity for all students, regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, disability, sexual orientation, gender identity, or sex.
- b) Communicate and keep parents/guardians informed on classroom policies, expectations on behavior, student progress and classroom discipline in a language that they understand and become a partner with our schools.
- c) Attend work, be punctual, prepared and always respectful to students, staff and parents.
- d) Involve families, students, staff members and the community in the process of fostering positive behavior and student engagement.
- e) Ensure clear, developmentally and age-appropriate consequences are applied to misbehavior in a way that supports personal growth and learning opportunities for students.
- f) Include appropriate procedures for students with disabilities and due process for all students in our school system.
- g) Maintain a safe working environment where all students can learn and develop good habits.

### **Student Expectations**

Students will do the following:

- a) Be familiar with and abide by all district policies, rules and regulations regarding student conduct.
- b) Always dress appropriately at school and follow all school expectations regarding code of conduct.
- c) Be a contributing member in maintaining a safe, supportive and orderly school environment at all times.
- d) Be respectful to teachers, other students, staff members and other school personnel in the school building.
- e) Attend school, regularly on time, perform assignments, strive for quality work, and be prepared to learn in their classroom each day.
- f) Participate in class and complete all assignments on time in order to assist in the learning process throughout the school year.
- g) Conduct themselves as positive representatives of the school district before, during and after school hours.

### **Parent/Guardian Expectations**

Parents/guardians will do the following:

- a) Make sure their children attend school regularly and on time. Parents need to notify the school at all times when their children are absent or late to school.
- b) Recognize that the education of their child(ren) is a joint responsibility of the parents/guardians and school community.

- c) Work with building administrators and school staff by developing an open line of communication to address any academic or behavioral problems their children may be experiencing.
- d) Serve as role models for their children by knowing school rules and expectations as well as encouraging their children to do the same.
- e) Teach their children to maintain a climate of mutual respect and dignity for all students, regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, disability, sexual orientation, gender identity or sex.
- f) Stay involved in the educational process as a parent. Attend parent-teacher conferences, read school communications, and maintain up-to-date home, work and emergency numbers with the school office. Parent involvement is expected and appreciated.

Reminder to all guests. Any administrator at School City of Mishawaka has the authority to prohibit the entry of any person to a school of this Corporation or to expel any person when there is reason to believe the presence of such person would be detrimental to the good order of the school. If such an individual refuses to leave the school grounds or creates a disturbance, the administrator is authorized to request from the local law enforcement agency whatever assistance is required to remove the individual. (Policy 9150)

### **Community Members/Volunteer Expectations**

Community members/volunteers will do the following:

- a) Assist school administrators and teachers in strengthening school/community relations through participation.

**Check-in with School Counselor/Resource Specialist/Coach**

Students are prompted by school staff to have an informal check-in with a school counselor, resource teacher, school psychologist, school social worker, or other adult who has a positive relationship with the student.

**Classroom-based Responses**

**Conflict Resolution**

Using strategies to assist students in taking responsibility for resolving conflicts peacefully. Students, parents/guardians, teachers, school staff, and/or administrators engage in activities that promote problem-solving skills and techniques, such as conflict and anger management, active listening, and effective communication.

**Detention**

Schools should strive to notify parents/guardians before students serve an after-school or before school detention. 3. The school system provides the excluded student with comparable educational services and behavioral support services to promote a successful return to the student's regular academic program.

**Functional Behavioral Assessment (FBA) and Behavioral Intervention Plan (BIP)**

A Functional Behavioral Assessment is a process that uses data to identify patterns in the student's behavior and the purpose or function of the behavior. School staff should take proper steps to correct or manage that behavior. The information is used to develop a Behavioral Intervention Plan for the student. A Behavioral Intervention Plan offers positive behavioral interventions, strategies, and supports designed by school staff to reduce or extinguish the inappropriate or disruptive school behavior, and teach the student how to exhibit the appropriate school behaviors.

**In-school Intervention**

Removing a student within the school building for an abbreviated period of time from their regular education program. The student may need a cool off/regrouping period, a meeting with a counselor, social worker or administrator.

- caused by, or had a direct and substantial relationship to the student's disability: or

The case conference must occur within 10 days of any decision to change the student's placement for violating a code of conduct .

Students are encouraged to privately share issues or concerns that lead to inappropriate or disruptive behavior that negatively affect academic success, and discuss goals and learn techniques that help them overcome personal challenges. These services may include anger management classes and formal or informal behavior coaching or skills training.

In consultation with principal or designee, bringing together a student support team that may include school counselors, teachers, principals, social workers, health services, school psychologists, and external agency representatives under a case manager to help develop prevention and intervention techniques and alternative strategies designed to improve student outcomes. **Removal from Extracurricular Activities/Loss of Privileges**

Revoking a student's privilege to participate in extracurricular activities, including sports and clubs, or revoking a student's privilege to participate in school events or activities, such as attending a field trip or participating in a school dance. **Restitution**

Requiring a student to compensate others for any loss, damage, or injury that has resulted because of a student's behavior. Compensation may be made monetarily or by a student's assignment to a school work project, or both.

**Restorative Practices**

Restorative practices are used proactively to establish and maintain a positive school climate and establish a structured approach to teaching appropriate social skills. Restorative practices employ interventions, responses, and practices designed to identify and address the harm caused by an incident, including harm to a victim, and to develop a plan for the student who caused the harm to heal and correct the situation.

**Saturday School**

Requesting a student to report to a designated area within the school building on (MHS only) Saturday morning from 8:00 AM–12:00 PM due to inappropriate behavior. - appropriately progress in the general education curriculum;
- receive the special education and related services specified in the student's Individualized Education Program (IEP);
- receive instruction commensurate with the program afforded to the student in the general education classroom; and
- participate with peers as they would in their current education program to the maximum extent appropriate.

Students assigned to ISS receive credit for school attendance and completed class work. The usual assignment of days of ISS is from 1–5 days, but additional days/time may be assigned by not completing assigned schoolwork or continued misconduct.

**Suspension (Out-of-School)**

The removal of a student from school for a time period between 1 and 10 school days for disciplinary reasons by the principal, with notice to the parent/guardian. Removal of a student for any part of a day constitutes a day of removal. A change in placement occurs when a student with a disability has been removed for more than 10 consecutive or cumulative days in the same year. A Manifestation Determination Hearing will be conducted within ten instructional days.

**Weekday Detention (MHS only)**

Requesting a student to report to a designated area after school on Thursday due to inappropriate or disruptive behavior. Students will be expected to bring work from their classes to work on during this time. Schools should strive to notify parents/guardians before students serve.

## **FACTORS IMPACTING DISCIPLINE DECISION**

### **Decision Making Framework**

SCM staff will make all disciplinary determinations using developmentally age appropriate criteria, warranting that the consequences applied are proportional and consistent. In evaluating the circumstances, all school staff members should review the “Levels of Interventions and Responses” with attention to the examples provided and acknowledge the following standard relating to the discipline of students.

1. The student’s age.
2. Past serious discipline infractions (including prior misconduct, and the number of times the misconduct has occurred).
3. Other mitigating or compelling circumstances (student may be receiving special education related services through an IEP or has a disability).
4. Possible threat of serious harm to students and adults.
5. The circumstances surrounding the incident.
6. Cultural or linguistic factors that may provide background to understanding student behavior.

## **DISRUPTIVE BEHAVIORS: LEVELS OF RESPONSES**

### **Disruptive Behaviors: Levels of Interventions & Responses**

When students act inappropriately, school staff and administrators need to respond reasonably and as consistently as possible. School City of Mishawaka describes four levels of responses to inappropriate and disruptive behaviors. Every inappropriate and disruptive behavior is designated to one or more levels of intervention and responses. All building administrators and staff members should only use the levels recommended for each student behavior.

If the inappropriate/disruptive behavior is assigned to two or more levels, then, when possible, the lowest level of disciplinary response should be used first. For example, if a student refuses to follow teacher directions, which falls into both Level 1 and Level 2, school administrators and staff should first use intervention strategies from Level 1 before advancing to Level 2, if necessary.

This policy applies to all students, regardless of the existence of a disability.

Seclusion and restraint shall be used only: 1) as a last resort safety procedure employed after another, less restrictive procedure has been implemented without success; and 2) when there is an imminent risk of injury to the student, other students, school employees, or visitors to the school.

The notification will include the dates of the suspension, describe the student's misconduct, and the action taken by the principal (or designee).

**Expulsion Procedures (Policy 5610)**

When a principal or designee recommends that a student be expelled from school, the following procedures will be followed:

1. When the Principal recommends to the Superintendent that a student be expelled, the Superintendent may conduct an expulsion meeting, or may appoint one of the following persons to conduct the expulsion meeting:
  - a. Legal Counsel
  - b. A member of the administrative staff who did not expel the student and was not involved in the events giving rise to the expulsion.
2. An expulsion will not take place until the student and the student's parent are given notice of their right to appear at an expulsion meeting conducted by the Superintendent or the person designated above. Failure to request and to appear at this meeting will be deemed a waiver of rights administratively to contest the expulsion or to appeal it to the School Board.
3. The notice of the right to an expulsion meeting will be in writing, delivered by certified mail or by personal delivery, and contain the reasons for the expulsion and the procedure for requesting the meeting.
4. At the expulsion meeting, the principal (or designee), will present evidence to support the charges against the student. The student or parent will have the opportunity to answer

the charges against the student, and to present evidence to support the student's position. An attorney may not represent the student at the expulsion meeting, but the attorney may be available for consultation outside the meeting room during the course of the meeting.

5. If an expulsion meeting is held, the expulsion examiner will make a written summary of the evidence heard at the meeting, take any action found to be appropriate and give notice of the action taken to the student and the student's parent.

The student or parent has the right to appeal the decision of the expulsion examiner to the appropriate. Any expulsion taking effect more than three (3) weeks prior to the beginning of the second semester of any school year must be reviewed prior to the beginning of the second semester. Any expulsion that will remain in effect during the first semester of the following year must be reviewed before the beginning of the school year.

It will be recommended that a student be expelled for one calendar year when, while on school property, the student possesses, handles, uses, or transmits a firearm, bomb, or destructive device as defined in IC 35-47-1-5 and IC 35-41-1-4-3. The student will be allowed to return to school at the beginning of the first school semester after the end of the one year period. It will be recommended that a student be expelled for one calendar year when, while on school property, the student possesses, handles, uses, or transmits a deadly weapon as defined in IC 35-41-1-8. A student who commits arson or rape in a Corporation building or on Corporation property, including school buses, will also be expelled.

A student may be suspended or expelled for engaging in unlawful activity on or off school grounds if the unlawful activity may reasonably be considered to be an interference with school purposes or an educational function, or the student's removal is necessary to restore order or protect persons on school property. This includes any unlawful activity that takes place during weekends, holidays, other school breaks, and the summer period when a student may not be attending classes or other school functions.

### **Search and Seizure (Policy 5771)**

According to Indiana law a student shall have no expectation of privacy in a vehicle or in the contents of a vehicle operated or parked on school property, a school-provided locker, or a book/gym bag that has been brought onto school property. An administrator may conduct a search of the above locations as well as minimally search a student if there is suspicion that such a search could produce evidence of a violation of law, a school rule, or a condition that endangers the safety or health of the student. Prior to a search of a student's person and personal items in the student's immediate possession, consent of the student shall be sought by an administrator. Searches of the person of a student shall be conducted and witnessed by a person of the same gender as the student and shall be conducted in a private place. The student shall be given the option of selecting the witness from the faculty members on the school premises at the time of the search. A searched student's parent or guardian shall be notified of the search within

twenty-four (24) hours if possible. The Superintendent may request the assistance of a law enforcement agency in implementing any aspect of this policy. Where law enforcement officers participate in a search on school property or at a school activity pursuant to a request from the Superintendent, the search shall be conducted by the law enforcement officers in accordance with the legal standards applicable to law enforcement officers.

The Board authorizes the use of specially trained dogs to detect the presence of drugs or devices such as bombs on school property under the conditions established in the Superintendent's administrative guidelines.

Administrators are authorized to arrange for the use of breath-test instruments for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the Board has established a zero tolerance for alcohol use.

### **Drug Prevention (Policy 5530)**

School City of Mishawaka recognizes that the misuse of drugs is a serious problem in contemporary society and as the educational institution of this community, the prevention of drug abuse is a priority. Therefore, School City of Mishawaka prohibits the use, possession, concealment, or distribution of any drug and any drug-related paraphernalia at any time on School City of Mishawaka property or at any school-related event. School City of Mishawaka further establishes a drug-free zone within 1,000 feet of any facility used by the Corporation for educational purposes.

### **Random Drug Testing (Policy 5145)**

Because of the risks associated with the use of alcohol and illegal drugs, School City of Mishawaka conducts a mandatory random testing program for all students in grade 7 through 12 who participate in interscholastic athletics or extra-curricular activities as listed in each school's handbook. Participation in extracurricular activities is a privilege, not a right. All participants must maintain their academic eligibility as well as agree to be part of a pool of students subject to random drug and alcohol testing.

## **STUDENT HEALTH**

### **Student Illness or Injury**

If a student becomes ill or is injured at school, the student will be sent to the Health Office to be assessed. Students may be sent home for illness at the discretion of the school nurse. If it is determined that the student needs to be sent home or requires emergency treatment, the child will only be released to parents/ guardians or the persons designated on the student enrollment forms. It is vitally important that the information on these cards be as accurate and as up-to-date as possible. Students will not be released from school for health reasons until a parent has been contacted and permission has been obtained for the students to leave. A student who becomes ill and leaves without such permission will be considered truant. In cases of accident or serious illness if the school is unable to reach parents or the emergency contact, the school will notify emergency personnel for treatment and/or transport.

### **Immunization (Policy 8510)**

As required by law, the School Board establishes the following wellness policy for the School Corporation as a part of a comprehensive wellness initiative. The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the Corporation's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school. Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise. It will be necessary for not only the staff but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits. To access the complete board approved policy please visit [Mishawakaschools.com](http://Mishawakaschools.com).

If anyone within our school community is interested in participating on the School City of Mishawaka Wellness Council, please contact our central office front desk at 574-254-4500.

### **Meningococcal Disease**

IC 20-30-5-18 requires that parents/guardians be informed each year about meningococcal disease and its vaccine. Meningococcal disease is a dangerous disease that can strike children and youth. The disease can progress rapidly and within hours of the first symptoms, may result in death or permanent disability including loss of hearing, brain damage, and limb amputations. Symptoms of meningococcal disease often resemble the flu and can include fever, headache, nausea, and stiff neck, making it difficult to diagnose. The bacteria that cause meningococcal diseases are transmitted through air droplets and by direct contact with an infected person. Fortunately, there is an immunization available and the U.S. Centers for Disease Control and Prevention recommends routine meningococcal immunizations at 11 to 12 years old. For teenagers, immunization is recommended at high school entry and incoming college freshmen. Parents should discuss meningococcal disease and vaccination with their children's health care provider.

### **Medical/Dental Appointments**

Parents are encouraged to schedule appointments outside of school hours. When it is necessary to schedule an appointment during school hours, parents are required to notify the school. The student should attend school before and after appointments. Doctor's verification of the appointment must be submitted to the attendance office when the student returns to school on the same day or the following day.

### **Communicable Diseases/Fever (Policy 8450)**

Any student with a fever of 100.<sup>4</sup> degrees or above should be kept home until they are fever free without the use of fever-reducing medication for 24 hours. Students should also have no signs of vomiting or diarrhea for 24 hours prior to returning to school. If a student has a communicable disease that is transmissible through normal school contacts, poses a substantial threat to the

health and safety of the school community, or is infested with parasites, the school nurse may send the student home. The nurse will communicate with the student's parent, and describe the nature of the illness or infestation. The student may return to school when the following criteria are met:

- The student's return to school meets the guidelines in the current edition of the Indiana State Department of Health Communicable Disease Reference Guide for Schools.
- A doctor's letter stating it is safe for the student to be readmitted is provided.

### **Medications at School (Policy 5330)**

No prescribed medication will be administered to a student without the written prescription from the child's physician accompanied by the written authorization of the parent. Nonprescription medicine requires the written consent of the parent. **Form A, Authorization to Administer Medication** must be used for this written authorization. It is available on the School City of Mishawaka website and also at the back of this handbook. Medication at school must be brought to school by a parent or guardian. Prescription medication must be in a prescription container labeled with the student's name and exact dosage instructions. Non-prescription medication must be in its original container. Any unused medication that is not picked up by the parent on the last day of school will be destroyed. A student with a chronic disease or medical condition may possess and self-administer medication at school only if an authorization form has been filed by the student's parent. This form, **Form B Authorization to Possess and Self-administer Inhalers, Epi-Pens, and Insulin** must be completed by the Physician and also signed by the parent and student. All medical documentation will be kept on file in the Health Office and must be renewed each school year.

### **Bloodborne Pathogens**

School City of Mishawaka is subject to regulations from the Occupational Safety and Health Administration (OSHA) to restrict the spread of hepatitis B virus (HBV) and human immunodeficiency virus (HIV) in the workplace. These regulations are designed to protect employees of the Corporation who are, or could be, exposed to blood or other contaminated bodily fluids while performing their job duties. Because of the very serious consequences of contracting HBV or HIV, the Corporation is committed to taking the necessary precautions to protect both students and staff from its spread in the school environment. Part of the Federally-mandated procedures includes a requirement that the Corporation request the person who was bleeding to consent to be tested for HBV and HIV. This information would then be provided both to the exposed employee and the treating physician to determine proper medical treatment. The law does not require parents or guardians to grant permission for the examination of their child's blood, but it does require the Corporation to request that consent.

## INFORMATION FROM THE SCHOOL HEALTH OFFICES

- If your student will require a **health plan** or assistance from the health office, please stop by or call the health office as soon as possible.

- If your student required any **emergency medication** such as an EPI-PEN, Benadryl, Glucagon, etc. please turn these medications and the appropriate paperwork into the health office upon the first day of school
- Please do not send medication to school with your student. **An adult must bring medications to school.** Medication must be in the original bottle and have the appropriate paperwork signed in order for school health staff to administer medications at school. Loose tablets in baggies or pockets, will not be accepted for the safety of your student and other students.
- If your student requires additional **immunizations**, please give that information to the health office or, if you have an appointment scheduled, please notify us of the date.

## SAFETY

### Fire, Tornado and Safety Drills (Policy 8420)

School City of Mishawaka complies with all fire safety laws and will conduct fire drills in accordance with State law. Specific instructions on how to proceed will be provided to students by their teachers who will be responsible for safe, prompt and orderly evacuation of the building. Tornado drills will be conducted during at least once a semester, using procedures prescribed by the State. The alarm system for tornadoes is different from the alarm system for fires. Students will be instructed on the procedures during a tornado drill.

Safety drills will be conducted at least once per semester. Teachers will provide specific instruction on the appropriate procedure to follow in situations where students must be secured in their building rather than evacuated. These situations can include terrorist threat, a person in possession of a deadly weapon on school property, or other acts of violence.

### Emergency Closings and Delay

If the school must be closed or the opening delayed because of inclement weather or other conditions, notification will be made via the automated messaging system, School City of Mishawaka Facebook and on the School City of Mishawaka website. Local radio and television stations will also be notified. Parents and students are responsible for knowing about

emergency closings and delays. If an announcement is **not** made, schools will be open. A decision to close will be made as early as possible, perhaps even the night prior. If schools are open, parents should determine whether or not their child can withstand the elements and attend school.

If school is open, or delayed, because of inclement weather, the school will respect the parent's decision to keep their child at home. Parents are expected to contact the school and inform school officials of their determination, and the student will be counted as absent, per Indiana code. Please do not attempt to call the school, the central office, or the radio/television stations to verify that schools are in session. Students who are absent due to inclement weather will be given the opportunity to complete their academic work in the same manner as an excused absence from school.

Such searches may also be conducted using walk-through or hand-held metal detectors as a part of a comprehensive program of safety and security.

No person shall be selected to be searched based solely upon his/her gender, race, ethnicity, religion, disability, physical appearance, manner of dress, or association with any particular group of persons.

### **Video Surveillance**

The Corporation utilizes video surveillance in order to protect Corporation property, promote security, and protect the health, welfare, and safety of students, staff, and visitors. Established

legal principles found in both State and Federal law will in most cases prevent school officials from allowing members of the public to view video surveillance material.

### **Tobacco (Policy 7434)**

It is the intention of the Corporation to provide an environment that is free of health hazards. The use of tobacco is prohibited in any buildings, on all school grounds, and all vehicles belonging to School City of Mishawaka. All meals served must meet the nutrition standards established by the US Department of Agriculture. Lunch menus, prices, and other helpful information can be found on the School City of Mishawaka website under the Food Service heading.

#### **Meal Charging**

The Food Service Department strongly discourages meal charging, but understands that an occasional emergency makes it necessary at the **Elementary** level.

- Students will be allowed to charge up to three meals.
- After the first meal charge, a verbal reminder will be given to the student.
- After the second meal is charged, a written reminder will be sent home with the student.
- After the third meal is charged, a phone call will be given to the parent.
- If a fourth charge is requested, the student will be given a peanut butter or cheese sandwich and fat free milk. A courtesy call will be given to the parent by the Food Service Coordinator making certain that they are aware that payment is due.
- After five days of non-payment the Food Service Coordinator will be in contact with the building principal and/or social services.
- In order for students to pay off their accounts by the end of the year, there will be no charging the last two weeks of the school year.

***No charging is allowed at John Young Middle School and Mishawaka High School.***

#### **Free/Reduced Price Federal Program**

Every household with a student enrolled for the 2023 – 2024 school year will receive information and an application for "Free and Reduced Priced Meals and Other Benefits". The application can also be found on the School City of Mishawaka website. The completed application must be

returned to the Director of Food Service, 1402 South Main Street, Mishawaka, IN 46544 for review.

### **Debit Account Program**

The NutriKids POS [Point of Sale] System sets up a Debit Account for your child's breakfast and/or lunch purchases. Your child's Debit Account is only accessed with his/her Barcode. The program handles full price purchases as well as reduced price and free meal plans. Deposits can be made at the school cafeteria, at [myschoolbucks.com](http://myschoolbucks.com), or through the Director of Food Service at the Administrative Center. Money deposited into the account can only be used for breakfast and/or lunch purchases. The student can check the balance whenever a purchase is made, but the student cannot get any cash from the account. Any funds left at the end of the school year are automatically rolled over for the next year. However, a parent may instead request a refund by contacting the Director of Food Service at 254-4500.

## **PARENT RESOURCES**

### **Communication**

Cooperation between home and school is critical to a student's educational success. School City of Mishawaka values and encourages parental involvement. Parents are welcome to contact their child's school to address issues and concerns regarding their child's education. Attending open houses and Parent-Teacher conferences gives parents first-hand information about what their children are learning and how they are progressing. School information is shared with parents in a number of ways, including newsletters and on the School City of Mishawaka website. Parents can also register to receive phone, text, and email alerts on the Corporation's automated messaging system, and follow School City of Mishawaka on social media through Facebook or Twitter.

### **Media Coverage**

School City of Mishawaka is proud to share good news about our students, programs, and events. School City of Mishawaka encourages media coverage so that the community may learn about the great things that students and staff are doing. If you **DO NOT** want your child to be included in media coverage, corporation publications, websites and social media please respond "No" in the Media Information step of your Online Enrollment and/or Returning Students Form through your Skyward Parent Portal. Without a **MEDIA DENIAL** indication on file at your child's school, it will be assumed that you have granted permission for your child to appear in videos and/or photographs for (social)media usage.

Thank you for your cooperation in helping us highlight the good work and efforts of our learners and instructors.

**Reporting Student Progress (Policy 5420)**

School City of Mishawaka recognizes its responsibility to keep parents informed of student welfare and progress in school. Parents will be informed of their child's progress via parent conferences with teachers. Parents register to monitor their child's grades and attendance online with the Skyward software system. Parents may register to use Skyward by contacting the school office.

**Mishawaka Parent Group**

The Mishawaka Parent Group (MPG) is a newly formed group consisting of parents, teachers, administrators and community members. We are looking to develop MPGs in each of our schools by building partnerships with parents and the community to enhance our school programs and community wide initiatives that benefit all students. Want to know more about this new group? Email – [Mishawakaparentgroup@gmail.com](mailto:Mishawakaparentgroup@gmail.com)

**Before and After School Programs**

Parents can enroll their elementary school children in before and after school child care programs. The before and after school program offers a safe and structured program, reinforces skills needed for success in school, and provides beneficial recreational activities. Information about the program is provided each year. To learn more, parents may also contact the elementary school office or the Office of Curriculum and Instruction.

**School Textbook and Supply Fees 2023-2024 School Year**

Indiana House Bill 1216 requires each public school to provide curricular materials at no cost to each student enrolled in the public school. This bill took effect July 1, 2023 and established the curricular materials fund to provide state advancements for costs incurred by public schools in providing curricular materials to students at no cost.

This means you will not be charged for textbook fees this year. Please note that you may see textbook fees listed in your child's Skyward account. Those are needed in order for us to report the cost of the fees to the State.

**STUDENT RECORDS (Policy 8330)****Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older certain rights with respect to the student's educational records. To review those rights, refer to Policy 8330. Parents have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the Corporation to comply with the requirements of FERPA.

### **Directory Information (Policy 8330)**

In order to provide appropriate educational services and programming, individual student information must be collected and retained.

The Federal Family Educational Rights and Privacy Act (FERPA) requires us to inform families each year of the types of information we consider to be “directory information” and give parents/guardians the opportunity to restrict the release of such information. The primary purpose of directory information is to allow this type of information in certain school publications such as the yearbook, honor roll and recognition lists, graduation programs, sports activity sheets, and playbills for school drama productions. It can also be disclosed without specific parental permission to reliable third parties, such as class ring manufacturers and yearbook publishers. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent. If you do not want School City of Mishawaka to disclose directory information from your child’s education records without your prior written consent, you must notify the Office of the Superintendent in writing by no later than two (2) weeks after your receipt of this Handbook. The Corporation has designated the following information as directory information:

- Address
- Telephone listing
- Photograph
- Date and place of birth

Further, it is the policy of the Corporation to provide an equal opportunity for all students regardless of race, color, national origin, sex (including transgender status, sexual orientation and gender identity), disability, age, religion, military status, ancestry, or social or economic background to learn through the curriculum offered in this Corporation. The following person has been designated to handle inquiries regarding the non-discrimination policies:

For further information on notice of non-discrimination or for the address and phone number of the office that serves your area, call 1-800-421-3481.

### B. Pest Control and Use of Pesticides (Policy 8432)

School City of Mishawaka is committed to providing a safe environment for students. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure.

School City of Mishawaka will:

- Annually inform parents and staff members of the Corporation's pest control policy at the time of student registration by a separate memorandum or as a provision in the staff and/or student handbook;
- Provide the name and phone number of the person to contact for information regarding pest control;
- Establish a registry of parents and staff members who want to receive advance notice of all pesticide use and provide such notice;
- Provide notice of planned pesticide applications to parents and employees who have requested advance notice;
- Maintain a written record for ninety (90) days of any pesticide applications.

The Corporation will provide notice to those in the registry at least two (2) school days prior to the date and time the pesticide application is to occur unless an emergency is declared. The notice will include the date and time of the pesticide application, the general area where the

pesticide is to be applied and the telephone number to contact for more information. In case of emergency pesticide applications, because of immediate threat to the public health, the school shall give written notice as soon as possible.

### **C. Annual AHERA Notification**

In the past, asbestos was used extensively in building materials because of its insulating, sound absorbing, and fire retarding capabilities. Virtually any building constructed before the late 1970's contained some asbestos. Intact and undisturbed asbestos materials generally do not pose a health risk. Asbestos materials, however, can become hazardous when, due to damage or deterioration over time, they release fibers. If the fibers are inhaled, they can lead to health problems, such as cancer and asbestosis.

In 1986, Congress passed the *Asbestos Hazard Emergency Response Act* (AHERA) which requires schools to be inspected to identify any asbestos containing building materials. Suspected asbestos-containing building materials were located, sampled (or assumed) and rated according to condition and potential hazard. Every three years, School City of Mishawaka has conducted a re-inspection to determine whether the condition of the known or assumed asbestos containing building materials (ACBM) has changed and to make recommendations on managing or removing the ACBM. At the last re-inspection conducted on March 20, 2021, all materials listed in the Management Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition. The law further required an asbestos management plan to be in place by July 1989. The Corporation developed a plan, as required, which has been continually updated. The plan contains several ongoing requirements for such things as the posting of warnings, education, and training.

### **D. Parents' Right to Know – To Parents of Students Enrolled in Title I Elementary Schools (Battell, Beiger, Emmons, LaSalle, and Liberty Elementary Schools)**

- Whether the student is provided services by paraprofessionals, and if so, their qualifications.

**Parent Participation in Title I (Policy 2261.01)**

Section 1118 of Title I requires that programs supported by Title I funds must be designed and implemented in consultation with parents of the students being served. The guidelines are described below:

- The Corporation expects the parents to be involved in the program, including their participation in the development of the plan.
- Meetings will be conducted with parents including provisions for flexible scheduling and whatever assistance the Corporation may be able to provide parents in order to better ensure their attendance at meetings, and for providing information in a language the parents can understand.
- Meetings will include review and explanation of the curriculum, means of assessment, the proficiency levels students are expected to achieve and maintain, and means for monitoring progress.

- Parents will be assisted in providing help to their children in achieving the objectives of the program by such means as ensuring regular attendance; monitoring television-watching; providing adequate time and the proper environment for homework; guiding nutritional and health practices; and the like.
- Timely responses will be given to parental questions, concerns, and recommendations;
- The Corporation will provide coordination, technical assistance and other support necessary to assist Title I schools to develop effective parental participation activities to improve academic achievement.
- An annual evaluation of the parental involvement plan will be conducted with parents, identifying any barriers to greater parental involvement (such as limited English, limited literacy, economic disadvantage, disability, etc.) and devising strategies to improve parental involvement, and to revise, if necessary, the parental involvement policies.
- The parental involvement plan will be coordinated with other programs, such as Head Start, Reading First, Even Start, Parents as Teachers, and Home Instruction for Preschool Youngsters.
- The Corporation will educate educators, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school.

- Other activities will be conducted as appropriate to the plan and State or Federal requirements.

Each Title I participating school will also develop a specific plan, with parental involvement, to:

- Convene an annual meeting at a convenient time to which parents of participating children are invited, to explain the parents' rights to be involved and the school's obligations to develop an involvement plan;
- Devise a flexible meeting schedule and describe assistance to encourage parental involvement, such as child care, transportation, home visits, or similar aid;
- Involve parents in an organized, on-going and timely way in the development, review and improvement of parent involvement activities;
- Provide participating students' parents with:
  - timely information about the Title I programs;
  - an explanation of the curriculum, the forms or academic assessment, and the proficiency levels expected;
  - regular meetings, upon request, to make suggestions;

  - The school's responsibility to provide high quality curriculum and instruction in a supportive, effective learning environment;
  - Parent's responsibility for such things as monitoring attendance, homework, extra-curricular activities, and excessive television watching; volunteering in the classroom;
  - The importance of parent teacher communication on an on-going basis through at least annual parent teacher conferences to discuss achievements and the compact; frequent progress reports to the parents; reasonable access to staff and opportunities to observe and participate in classroom activities.
